

# **VISION**

Creating a long-term future for Australia's threatened wildlife.

# **MISSION**

- To protect Australia's threatened species with robust insurance populations,
- To create healthy ecosystems within Aussie Ark Sanctuaries and through rewilding,
- To have long-term tangible outcomes for the species in our care,
- To be a proactive, professional, transparent, and effective organisation.

Every effort has been made to ensure the accuracy of the 2018-2019 Australia's Wildlife Ark Incorporated Annual Report. We apologise if any omissions or errors have occurred. If you discover an error or omission, please notify the Secretary and Public Officer, Liz Gabriel at admin@aussieark.org.au.

"Besides love and sympathy, animals exhibit other qualities connected with the social instincts which in us would be called moral."

Charles Darwin

Having been in the conservation business for almost a decade, Aussie Ark has grown considerably and keeps delivering further conservation outcomes so as to protect the wildlife we so deeply love. I am immensely proud of all the work we have accomplished this past fiscal year, especially taking into account the devastating bushfire crisis, as well as the pandemic we are currently living in. Being steadfast in honouring our mission of creating a long-term future for our threatened Australian species through rewilding and species and habitat recovery within Aussie Ark sanctuaries, the 2019-2020 fiscal year was punctuated with many successes and excitement.

This past year, native freshwater turtles have had a special place in our agenda. The Aussie Ark team and I have collected in the field numerous Manning River turtle individuals to start Aussie Ark's long awaited Manning River turtle breeding program and we launched a crowdfunding campaign for the rescue of the Hunter River and Bell's turtles.

Thanks to continued and dedicated work, Aussie Ark's family grew plenty with the birth of over 100 joeys, including 20 Manning River turtles, 39 Tasmanian devil joeys and 46 Eastern quoll joeys.

Following the fencing completion of our 400 hectare Barrington Wildlife Sanctuary, we released over 50 of our animals into the sanctuary, with many more to come. I could not be happier. Not only do Aussie Ark sanctuaries protect 7 keystone species and their natural habitat, an additional 50 species of mammals, 278 species of birds, 42 species of reptiles and 18 species of frogs benefit from their secure and wild environment.

The deadly bushfires, spanning from the end of 2019 to the beginning of 2020, shook all of us to our core. Aussie Ark refused to let our wonderful country and its wildlife go up in flames without a fight thus the Australian Wildlife Fund was launched in November with the aim of using the funds to deliver on-the-ground relief and conservation actions. With your incredible help and support, we raised over \$197,000 in a matter of months! Alongside our long-term partners Global Wildlife Conservation, we have raised funds from all around the globe.

Aussie Ark is immensely grateful for the continuous support of its partners Global Wildlife Conservation (GWC), Foundation for Australia's Most Endangered (FAME), Australian Reptile Park (ARP), Australian Geographic (AG), Glencore, Ellerston Station, Sydney Helicopters, NSW Government, Symbio Wildlife Park, Zoo Zurich, Zoo Leipzig and Pairi Daiza. I look forward to continuing this journey together.

Lastly, I am so thankful for the true dedication of the Aussie Ark team and board members and for their belief in Aussie Ark's vision and mission as much as I do. It is through species and habitat conservation and recovery that we can leave the next generations with a planet they can be proud of. **Directors Report** 

Tim Faulkner President

5

2019 – 2020 was certainly a year of many lows and some incredible highs for our world. Through it all Aussie Ark was able to deliver. During the devastating bushfire disaster Aussie Ark was there on the frontline. The team was able to rescue and relocate over 200 individual turtles saving them from imminent death. The team also provided supplementary food sources for displaced populations of endangered Brush-tailed rock-wallabies, as well as intervening and rescuing multiple platypus – all of which were suffering due to the fires and droughts. Just as the threat of fires started to subside, floods provided another devastating blow to our wildlife. Through it all Aussie Ark spent over 800 hours in the field working tirelessly to protect our precious wildlife. COVID-19 then gripped our entire world, and obstacle none of us had ever had to face.

Despite the challenges, Aussie Ark had some truly wonderful successes. We officially opened our Barrington Wildlife Sanctuary - a 400 hectare wildlife sanctuary. The sanctuary now hosts a suite of

returned wildlife, including Tasmanian devils and Eastern Quolls. Tasmanian devils have not been found on Mainland Australia in over 3000 years, whilst Eastern Quolls have been locally extinct for over 60 years. The return of these Australian mammals is a historic win for wildlife conservation.

As I reflect on our decade long operation, I can't help but note how far we have come and how significant our contributions to conservation in Australia continue to be. I am proud to be an active player in Aussie Ark and am looking forward to seeing where Aussie Ark soars to in the next 10 years.

As always, my thanks go out to our partners; Global Wildlife Conservation, Australian Reptile Park, FAME, Australian Geographic,

Glencore, Ellerston, Symbio Wildlife Park, Sydney Helicopters, Zoo Zurich, WIRES, Pairi Daiza and Zoo Leipzig, without whom Aussie Ark would not be the organisation it is today.

John Weigel

Founder and Managing Director

Aussie Ark is incredibly fortunate to have the support of both committed individuals and organisations. Running a conservation program, such as Aussie Ark, quickly becomes an expensive venture, however saving a species is priceless. We rely on the ongoing support from our project partners to make Aussie Ark a reality – without their support it wouldn't be possible.

#### **Australian Reptile Park**

The Australian Reptile Park was established in 1948 by the late, Eric Worrell. It is the only zoo in Australia committed to saving lives with its antivenom-milking program in place for the past 50+ years, saving over 300 lives each year as the sole supplier of antivenom. The Australian Reptile Park is the driving force behind Aussie Ark and has donated significant funding, resources and time to ensure the success of the project.

#### **Australian Reptile Park**

The Australian Reptile Park was established in 1948 by the late, Eric Worrell. It is the only zoo in Australia committed to saving lives with its antivenom milking program in place for the past 50+ years, saving over 300 lives each year as the sole supplier of raw venom for the production of antivenom. The Australian Reptile Park is the driving force behind Aussie Ark and has donated significant funding, resources and time to ensure the success of the project.

#### Global Wildlife Conservation (GWC)

Saving wildlife species from extinction is the driving force behind Global Wildlife Conservation, working with partners such as Aussie Ark, to ensure species are around for generations to come. GWC has built its success upon a foundation of excellence in Exploration, Research and Conservation. GWC's three key goals are; Save Species, Protect Wildlands and Build Capacity.

## Foundation for Australia's Most Endangered Species (FAME)

FAME has been a key supporter since the very beginning of Aussie Ark. They were so convinced by the Aussie Ark concept, that they made their largest ever contribution to a conservation project to ensure that it could be established. FAME is a national registered charity, a tax-deductible gift recipient organisation and an Aussie Ark partner, reliant upon donations from individuals to help curb the extinction of Australia's most endangered species

#### Australian geographic

Being Australia's foremost geographical destination magazine it captures the essence and spirit of Australia through its meticulously crafted and beautifully presented stories and photography. The

highly respected authoritative, and much loved brand, seeks to inspire, educate and entertain, connecting readers to Australian landscapes, plants and animals, science, industry and people. Australian Geographic has not only helped promote Aussie Ark's cause but has also sponsored the Eastern quoll enclosures at Aussie Ark, helping us build on what we know is a successful model.

#### **Ellerston Pty Ltd**

Aussie Ark is built on land owned by the Packer family for the term of the project. This has provided Aussie Ark with the much-needed support to develop our captive breeding program to establish a sustainable insurance population, with enough space for future expansion.

#### WIRES

WIRES, Australia's largest wildlife rescue organisation, has been rescuing and caring for native animals 365 days a year for almost 35 years. WIRES' mission is to actively rehabilitate and preserve Australian wildlife and inspire others to do the same. Annually, WIRES provide rescue advice and assistance for tens of thousands of sick, injured, orphaned and displaced animals and run around 100 wildlife training courses for thousands of participants.

# **NSW Government**

The NSW Environmental Trust is an independent statutory body established by the NSW Government to fund a broad range of organisations to undertake projects that enhance the environment of NSW. The Trust is empowered under the Environmental Trust Act 1998, and its main responsibility is to make and supervise the expenditure of grants. The NSW Environmental Trust has been one of Aussie Ark's greatest financial supporters since the project's inception and to date.

#### Glencore

Glencore have operated in Australia for over 20 years and hold significant interests in a range of commodity industries across all mainland states and the Northern Territory. The company is headquartered in Sydney and is a major Australian employer, with over 15,000 employees working across various industries. The partnership between Aussie Ark and Glencore came about when Glencore looking for a local

community environmental project with tangible outcomes that would make a real difference for Australian wildlife. Aussie Ark is also in the same region as one of Glencore's operating centres (the Upper Hunter) and the company is always on the lookout for local charities to support.

#### **Sydney Helicopters**

Sydney Helicopters have provided air work, charter services and tours along the east coast of Australia since 1985. It's exciting to see private enterprises supporting conservation initiatives such as Aussie Ark.

#### Symbio Wildlife Park

Symbio Wildlife Park is a privately owned and run wildlife park in Helensburgh, Sydney. Providing not only opportunities for visitors to become engaged and enabling close interaction with some of the world's most unique animals. Symbio Wildlife Park is a professional organisation, supportive of outcome based, progressive conservation programs such as Aussie Ark and helps to promote Aussie Ark's objectives and cause to over 100,000 visitors each year.

# Zoo Zurich

Zurich Zoo is a nature conservation centre in Switzerland. They work on behalf of threatened animal species by participating in international breeding programmes. They are also involved in six special focus regions outside Switzerland to protect endangered ecosystems and their biodiversity. They choose and implement nature conservation projects according to the principles of the World Association of Zoos and Aquariums WAZA.

# Zoo Leipzig

Zoo Leipzig stands for a unique concept that includes animal welfare and husbandry, species conservation, education and exciting explorer tours. They demonstrate their commitment to conservation by partaking in almost 60 breeding programs all over the world.

#### Pairi Daiza

Since its inception Pairi Daiza has been actively involved in the preservation of countless endangered species, including birds, mammals, fish and reptiles. Their objective is to promote the conservation of endangered species globally.

#### **KEY ACHIEVEMENTS**

During the 2019-2020 financial year, Aussie Ark received \$4,135,857.00 in income, including;

- \$40,000 Kinghorn
- \$70,400 Local Land Services
- \$20.000 Port Waratah Coal
- \$20,751.25 Donations tins
- \$250,000 Glencore
- \$20.000 Veolia Environment
- \$2,564,963.97 Global Wildlife Conservation
- \$23,493.63 Devils Retreat
- \$35,548.02 Devils in the Wild Tours

As of the date of this report, confirmed is a total of 121 joeys were born at Aussie Ark during the 2020 breeding season;

- Tasmanian Devils 39
- Eastern Quoll 43
- Rufous Bettong 4
- Long-Nosed Potoroo 8
- Southern Brown Bandicoot -7
- Manning River Turtle Hatchlings 20
- Aussie Ark was thrilled to host its third Gala dinner on November 6th 2019 in celebration of the 400 Hectare Barrington Wildlife Sanctuary opening earlier in the day. Hosted in the beautiful Curzon Hall in Sydney, Aussie Ark welcomed 143 guests to celebrate 8 ambitious years of wildlife conservation and devilish success.
- Following the fencing completion of the 400Ha Barrington Wildlife Sanctuary, the first animals were released at the beginning of 2020.
- · Aussie Ark is in the process of purchasing two additional properties to expand its conservation area of influence.
- In the beginning of 2020, Aussie Ark collected multiple Manning River turtles to begin the development of the insurance population in its newly constructed facility for the endangered native species. A month later, Aussie Ark staff collected additional Hunter River turtles for the same reasons.
- The devastating bushfires and drought of 2019-20 caused the demise of billions of animals within a matter of months. Aussie Ark stood out by its proactive on-the-ground relief actions. Among others, Aussie Ark staff saved and took under their care 5 platypus, dropped food in and around the Brush-tailed rock-wallaby habitat, plus many more initiatives.
- The slower curve of the bushfire crisis was met by the COVID-19 pandemic. During the time where the Aussie Ark facility was closed to the public, Aussie Ark's team worked tirelessly towards developing further projects and delivering the ones that were already in place, as well as creating brand new content like "Animal Tales with Tim Faulkner" which was viewed by over 10 million people worldwide.

ABN 51 417 871 203

# Notes to the Financial Statements

For the period 1 July 2019 to 30 June 2020

# Note 1: Summary of Accounting Policies

The Officers have prepared the financial statements on the basis that the Association is a non reporting entity because there are no users dependent on general purpose financial statements. The financial statements are therefore special purpose financial statements that have been prepared in order to meet the needs of the Members.

The financial statements have been prepared in accordance with the significant accounting policies, which the company has determined are appropriate to meet the needs of the Officers. Such accounting policies are consistent with the previous period unless stated otherwise.

The financial statements have been prepared on an accruals basis and are based on historical costs unless otherwise stated in the notes.

# **Accounting Policies**

The accounting policies that have been adopted in the presentation of the statements are as follows:

# Property, Plant & Equipment

Property, plant and equipment are carried at cost or market value. All assets, excluding freehold land and buildings, are depreciated over their useful lives to the company.

Increases in the carrying amount arising on revaluation of land and buildings are credited to a revaluation reserve in shareholders' equity. Decreases that offset previous increases of the same asset are recognised against fair value reserves directly in equity; all other decreases are recognised in profit or loss. Each year the difference between depreciation based on the revalued carrying amount of the asset recognised in profit or loss and depreciation based on the asset's original cost is transferred from the revaluation reserve to retained earnings.

# **Trade and Other Receivables**

Trade receivables are recognised initially at the transaction price (ie cost). Most sales are made on the basis of normal credit terms and do not bear interest. Receivables are not discounted to present value.

At the end of each reporting period, the carrying amounts of trade and other receivables are reviewed to determine whether there is any objective evidence that the amounts are not recoverable. Debts are written off once attempts at recovery of the debt have ceased.

# **Payables**

Accounts payable are recognised at their transaction price. Accounts payable are obligations on the basis of normal credit terms and do not bear interest.

# **Cash and Cash Equivalents**

Cash and cash equivalents include cash on hand, deposits held at call with banks, other short-term highly liquid investments with original maturities of three months or less, and bank overdrafts. Bank overdrafts are shown within short-term borrowings in current liabilities on the balance sheet.

ABN 51 417 871 203

# Notes to the Financial Statements

For the period 1 July 2019 to 30 June 2020

# Revenue and Other Income

Revenue is measured at the fair value of the consideration received or receivable after taking into account any trade discounts and volume rebates allowed.

All revenue is stated net of the amount of goods and services tax (GST).

# Goods and Services Tax (GST)

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Taxation Office (ATO).

Receivables and payables are stated inclusive of the amount of GST receivable or payable. The net amount of GST recoverable from, or payable to, the ATO is included with receivables or payables in the balance sheet.

The principle place of business is:

36 Myoora Road SOMERSBY NSW 2250

# Note 10: Members Liabilities

In accordance with Clause 10 of the Constitution of Australia's Wildlife Ark, the liability of a member to contribute towards the payment of debts and liabilities of the association or the costs, charges and expenses of the association is limited to the amount, if any, unpaid by the member in respect of the membership of the association. The number of members as at 30 June 2020 was 59 (2019: 59) and the amount of unpaid membership fees was \$nil (2019: \$nil).

# ABN 51 417 871 203

# Officers Declaration

The Officers have determined that the association is not a reporting entity and that this special purpose financial report should be prepared in accordance with the accounting policies prescribed in Note 1 to the financial statements.

The Officers of Australia's Wildlife Ark Inc declare that:

- 1. The financial statements and notes, present fairly the association's financial position as at 30 June 2020 and its performance for the period 1 July 2019 to 30 June 2020 in accordance with the accounting policies described in Note 1 to the financial statements; and
- 2. In the Officers opinion, there are reasonable grounds to believe that the association will be able to pay its debts as and when they become due and payable.

Signed on behalf of the Officers by:

Timothy Faulkner

# INDEPENDENT AUDIT REPORT TO THE MEMBERS OF AUSTRALIA'S WILDLIFE ARK INC ABN 51 417 871 203

# Scope

I have audited the attached special purpose financial report, comprising the Balance Sheet, Statement of Income & Expenditure and Notes to the Accounts of Australia's Wildlife Ark Inc for the year ended 30 June 2020.

The association's committee of management is responsible for the preparation and presentation of the financial report and the information contained therein, and has determined that the accounting policies used are consistent with the financial reporting requirements of the association and are appropriate to meet the needs of the members.

I have conducted an independent audit of the financial report in order to express an opinion to the members of Australia's Wildlife Ark Inc on its preparation and presentation.

My audit has been conducted in accordance with Australian Auditing Standards. My procedures included examination, on a test basis, of evidence supporting the amounts and other disclosures in the financial report and the evaluation of significant accounting estimates. These procedures have been undertaken to form an opinion as to whether, in all material respects, the financial report is presented fairly in accordance with the accounting notes described in the financial statements.

The audit opinion expressed in this report has been formed on the above basis.

# **Audit Opinion**

In my opinion, the financial report presents fairly in accordance with the accounting policies described in Note 1 to the financial statements the financial position of Australia's Wildlife Ark Inc as at 30 June 2020 and the results of its operations for the year then ended.

#### **TEAM IN THE FIELD**

The Aussie Ark team is made up of passionate and committed individuals who are focused on delivering positive outcomes for Australia's unique wildlife. The animals under our care at Aussie Ark are maintained to an extremely high level, thanks to the dedication of our team on the ground in the Barrington Tops.

The 2019-2020 financial year has seen some of Australia's most extreme weather conditions. The team at Aussie Ark adapted and rallied, heading into the field to rescue and relocated displaced wildlife, whilst also providing supplementary food sources for those in need on top of this in-situ work Aussie Ark

## **WILDLIFE**

Since 2011, Aussie Ark has vowed to protect endangered species from extinction and has been doing so with the utmost passion and dedication for our native wildlife. With a vision of providing a long-term future to our threatened native wildlife, Aussie Ark became one of NSW's biggest sanctuaries, as well as Australia's largest mainland breeding facility for the Tasmanian devil.

Previously named Devil Ark, Aussie Ark built its success off its breeding program for the endangered Tasmanian devil. Afflicted by a deadly disease, the Tasmanian Devil Facial Tumor Disease (DFTD), the species' population is decreasing at an unprecedented rate and without Aussie Ark intervention, this iconic animal could disappear forever. Over the years, Aussie Ark staff have bred a genetically diverse insurance population and have welcomed hundreds of strong and healthy joeys into the program. This year, 39 joeys were born into the program. Aussie Ark is hoping to release some of its individuals into the Barrington Wildlife Sanctuary as soon as Spring 2020.

Since 2017 Aussie Ark has expanded its umbrella of protection to encompass other endangered native Australian species. Those species are: Eastern quoll, Southern-brown bandicoot, Parma wallaby, Brush-tailed rock-wallaby, Long-nosed potoroo and Rufous bettong. Since European settlement, all of those

species' populations have undergone a significant decline in abundance. Threats such as habitat fragmentation and predation from feral pests including cats, foxes and pigs, are leading many native species towards extinction.

The Eastern quoll breeding program is, year after year, delivering a significant growth when it comes to the species insurance population. During the 2020 breeding season, Aussie Ark welcomed 46 Eastern quoll joeys. Aussie Ark staff are looking to release a group of quolls into Aussie Ark's 400ha Barrington Wildlife Sanctuary, making those individuals the second group to be released onto mainland Australia since the release into Booderee National Park in 2019.

During the 2020 breeding season, Aussie Ark embraced the arrival of seven Southern-brown bandicoot joeys. Of the estimated 12 species of bandicoots in Australia, approximately half are now extinct, threatened with extinction or extremely rare. Aussie Ark is determined to prevent the disappearance of the Southern-brown bandicoot and will be releasing numerous individuals into its 400ha sanctuary within the next few months. As an ecosystem engineer, its survival is necessary. Bandicoots help aerate soil and leaf litter assisting in natural litter breakdown, penetration of seedlings, organic mixing, thus improving nutrient availability for plants. In addition, they help spread fungi through the ecosystem, which assist plants to increase nutrient absorption.

Aussie Ark's Parma wallaby's insurance population has been thriving and going. Due to many threats faced by Parma wallabies, their range has been confined to the wet sclerophyll forests of Southern New South Wales. Aussie Ark's breeding program for the Parma wallaby is set up to ensure the protection of the species well into the future

Brush-tailed rock-wallabies have been deeply affected by the recent bushfires, spanning from the end of 2019 to the beginning of 2020. During those months, Aussie Ark staff have roamed the species' habitat and dropped food to ensure the survival of the remaining individuals. At Aussie Ark sanctuary, the Brush-tailed rock-wallaby insurance population keeps growing. The breeding facility is the only existing program for the endangered species and Aussie Ark staff are working towards expanding the species' enclosures in light of the

arrival of additional individuals.

The Long-nosed potoroo is one of the smallest and most ancient members of the kangaroo family and have remained relatively unchanged for around 10 million years. Once widespread along the East coast of Australia, the species holds a great importance as an ecosystem engineer. As a species they contribute to the health of the Aussie Ark wild sanctuaries by promoting underground fungal growth to benefit a range of fauna and flora species within the fenced areas. This financial year, Aussie Ark welcomed 8 Long-nosed potoroo joeys. Those joeys are part of the next generation of individuals to further the survival of their species.

The Rufous bettong insurance population is guaranteed by Aussie Ark's breeding program. With an increase every year, the Rufous bettong population grew further with the addition of 4 joeys into the program. Suffering from the effects of many threats like the expansion of agricultural land, Rufous Bettongs have suffered significant declines in their natural distribution. As a means to preserve the species, Aussie Ark is protecting wild areas inhabited by this species by removing or managing stock and feral herbivores, conserving native vegetation, managing fire and controlling feral predators.

The Manning River turtle is one of Aussie Ark's newest species. Following the construction of the first-ever breeding facility for the species, Aussie Ark staff have collected in the field numerous Manning River turtle individuals to start Aussie Ark's long awaited Manning River turtle breeding program. Months later, 20 tiny Manning River turtles have hatched, making them the first to hatch in Aussie Ark's captivity. Moreover, a crowdfunding campaign was launched for the rescue of the Hunter River and Bell's turtles and Aussie Ark is currently working on plans to start the construction of a breeding facility for both species. During the bushfires, Aussie Ark staff searched the remainder of the Manning River and the Hunter River for survivors. In total, over 200 endangered turtles were collected and relocated for optimal survival of both species.

Aussie Ark aims to diversify its species within the next years and its staff is working tirelessly to put into action many other projects so as to prevent any other native species from flying under our conservation radar.

# SITE REHABILITATION

For many years now, Aussie Ark has waged a war on the Scotch Broom, a highly invasive and noxious introduced weed that has taken over 10,000ha in the Barrington Tops. Introduced by the European settlers to Australia, Scotch Broom thrives in cooler conditions and forms a dense group of bushes.

The march of Scotch Broom poses a significant threat to the future of many endangered species, including terrestrial orchids and other specialized plants in the highlands. If not controlled, the weed can modify native ecosystems by increasing the frequency and intensity of fire, changing vegetation structure, altering soil chemistry and providing harbour for invasive animals.

The removal of the noxious weed has been a major focus for the Aussie Ark team. In the 2019-2020 financial year, Aussie Ark has been working with the Hunter Weed Authority to eradicate the invasive weed. An approximate 35 hectares of Scotch Broom was cleared using an intensive multi-faceted management plan involving herbicide spraying and the cut and painting method. This method consists of cutting the broom at the base and applying poison to the stem immediately. Whilst this manual handling is labour intensive, the result is wonderful and longer-lasting than most other techniques.

Additional site rehabilitation consisted of the removal of feral pest species from the 400ha Barrington Wildlife Sanctuary including 22 pigs, 2 cats and 2 foxes.

# **CAPITAL DEVELOPMENT**

The 2019-2020 financial year saw the opening of Aussie Ark's 400ha Barrington Wildlife Sanctuary, as well as the release of its first animals into the wild sanctuary. The Aussie Ark team is looking forward to expanding its area of conservation and is expecting to secure thousands of hectares of land to protect within the next few months.

David Stowe

## **WEBSITE**

During the 2019-2020 Financial Year, aussieark.org.au recorded the visit of 109,032 users - an increase of 444.56% compared to the previous year FY - where 88.6% were new visitors. A decrease in returning visitors was documented, going from 13% to 11.4%. Moreover, the users visited 2.24 pages per session and the average visitation duration was 1.32 minutes.

Google Analytics can tell us that 60.05% of visitors were from Australia - a decrease of 26.47% from last FY - and 15.34% from the United States - an increase of 60.12% from last FY.

#### **Website Uses Per Month**

## **SOCIAL MEDIA**

Facebook insights reveal that the Aussie Ark page grew from 41,235 followers to 57,285. Facebook insights also reveal that 70% of Aussie Ark fans were women, with 17% of those falling in the 35-44 age range. Geographically speaking, the cities where most of our followers are located are Sydney, Newcastle and Melbourne, with our top three countries being Australia, USA and UK.

## **COMMUNITY RELATIONS**

Aussie Ark had the privilege of attending many community events in the last financial year. These are a great opportunity for the team to not only promote Aussie Ark and our work, but also the greater need for conservation, education and engagement. Outside of this Aussie Ark also enjoys the chance to meet both new and long-term supporters and donors.

20th - 24th August 2018 - Agquip field days

9th September 2018 - Broke Village Fair

6th October 2018 - SSAA Illawarra Outdoors and Adventure Expo

22nd November 2018 - Galston Public School

Unfortunately, many events, due to occur in March, April and May, were cancelled in reaction to the COVID-19 pandemic.

# **DEVILS DASH 2019**

Following the dashing success of last year's Devils Dash event, Aussie Ark held for the second year the adored event and welcomed more than 30 participants. The funds raised by Aussie Ark went for the conservation of the Tasmanian devils.

# **OPEN DAYS 2020**

For the second year in a row, Aussie Ark hosted open days at its conservation facility allowing visitors to see firsthand the running of a conservation organisation and learn about all of Aussie Ark's projects to save some of our most endangered Australian native wildlife. Unfortunately, the horrifying bushfires, still going strong in January, restricted so many of you from attending this event. A significant decrease in the number of tickets sold was thus recorded.

We sincerely hope that those of you who were able to make it took away something from the experience, whether that be knowledge, passion, enthusiasm or a greater respect for our native animals.

# **AUSTRALIAN GEOGRAPHIC EXPEDITION 2019**

Due to the dashing success of the first Australian Geographic expedition, Aussie Ark was more than happy to hold the event once again. The Aussie Ark team was thrilled to welcome 18 participants to this financial year's expedition. Together with Aussie Ark President Tim Faulkner, participants in the 3-day expedition had the opportunity to immerse themselves with our native Australian wildlife at Aussie Ark's facility located in the heart of the Barrington Tops in NSW. The Australian Geographic expedition allowed participants to get their hands dirty by assisting in feeding and monitoring Tasmanian devil and Eastern quoll individuals, as well as learning about what goes into running and maintaining a facility like Aussie Ark.

David Stowe

## **MOONLIGHT CINEMA**

Aussie Ark's first Moonlight Cinema, hosted at the Australian Reptile Park, was a massive success with 350 moviegoers attending the event. Guests were introduced to many animals, including Aussie Arks gorgeous Tasmanian devil joeys and crocodile feeding. All funds raised on the night went towards assisting Aussie Ark in our mission to protect and ensure native Australian wildlife.

David Stowe

## **AUSSIE ARK BUSH WILDLIFE SLEEP OUT**

Wildlife enthusiasts had the opportunity to spend the night amongst wildlife during the Aussie Ark Bush Wildlife Sleep Out at the Australian Reptile Park. 55 guests experienced the thrill of sleeping out under the stars, plus an evening of interactive and hands-on wildlife shows and activities.

# **VALENTINE'S DAY PICNIC 2020**

Sadly, due to the floods following the devastating bushfires, Aussie Ark took the executive decision to cancel the 2020 Valentine's Day Picnic. Aussie Ark team is looking forward to hosting the event next year.

# **SUCCESSFUL GRANTS**

Aussie Ark is fortunate to have support from committed individuals and organisations around the globe. Some major financial contributors via grants are shown below for the 2019-2020 financial year;

**\$108,170.73** - Turtle Conservancy

**\$2,564,963.97** - Global Wildlife Conservation

\$150,000.00 - Glencore

# **CORPORATE DONORS & SPONSORSHIPS**

Aussie Ark is fortunate to have the support of corporate organisations through donation and sponsorships. During the 2019-2020 financial year, Aussie Ark received the following;

**\$20,000.00** - Port Waratah Coal

\$20,000.00 - Veolia Environment

250,000.00 - Glencore Bushfire Fund

## **GIFTS IN KIND**

Several local businesses contribute to Aussie Ark by providing valuable in-kind goods and services, thus reducing expenditure. Some contributors for this period include;

Australian Reptile Park

- Management services

#### Ellerston

- Reduced Mechanical rates
- Machinery
- Freight equipment
- Resources for fire reduction

## AGL

- Solar systems
- Volunteers

#### **Local Land Services**

- Pest Management

## Defense Force

- Animal Feed

# **Enright Land Management**

- Animal Feed

## **ACQUISITION**

The Aussie Ark team is continually targeting growth in donor numbers. There are several ways this is achieved and new methods are trialled each financial year. In order to grow the current Aussie Ark database, we explore creative and cost effective ways to grow our mailing list including:

- Social media drive to subscribe
- Website drive to subscribe
- Email collection at Australian Reptile Park Tasmanian Devil Shows
- Email collection via Australian Reptile Park entry competitions
- Email collection via attendance at local and regional shows and fairs

# **ADMINISTRATION & EXPENDITURE**

Aussie Ark is focussed on allocating funds to direct conservation.
